

## BRAND WHITLOCK MAY BE GROOMED FOR SECOND PLACE

Return of Minister Arouses  
Gossip in Administration  
Quarters.

### FAVORED BY MANY OHIOANS

Marshall's Attitude Toward  
Democratic Machine May  
Become Factor.

Gossip concerning the return of Minister Brand Whitlock, of Ohio, from his post at Brussels to the United States continues to be current and of many varieties.

Although the state department insists that there is nothing of a political nature in the return of Mr. Whitlock, rumors are going the rounds that he is favored by the Wilson Administration for Vice President. Another rumor is that the Ohio Democrats will put him forward for governor.

Such reports are not admitted to have any foundation in Administration quarters.

Another angle to the Whitlock case is the German allegation that the British government was guilty of bad faith in changing the reports made by the American minister in such a way as to reflect on officials of the German military regime in Belgium. It is said that Minister Whitlock's reports, which were published by the British government, were sent by him to Ambassador Page "for his information." It is strongly intimated that Mr. Whitlock did not intend that he should be the information of Page to be given to the press.

This phase of the situation has led to a recurrence of talk that back of the proposed visit of Minister Whitlock to this country is some form of expression from Germany of the displeasure of that government toward him.

The nomination of Mr. Whitlock for Vice President would be highly satisfactory to many progressive Democrats. But the Administration would have to face the problem whether it would help the Democratic party with the German view.

There is no keen or overweening desire in Administration quarters to have Vice President Marshall renominated. Much will depend as to whether the Democratic machine in the Senate this winter in making a nomination will be influenced by the fact that Mr. Whitlock is being intimated that he will get into hot water and find trouble in renomination.

**Saved Her Life**

The unqualified endorsement of Fruitola and Traxo in a recent letter from Mrs. S. Grindie, 5014 Mignonette St., Pittsburgh, Pa., will be of interest to other sufferers from stomach and intestinal troubles. Mrs. Grindie says:

"The doctors had given me up, saying the only hope left was an operation. I tried Fruitola and passed hundreds of gall-stones with the first two bottles. Am now feeling better than I have for years past. I will be glad to tell any sufferer how it has helped me, for I owe my life to it."

Fruitola possesses properties that act directly upon the intestinal parts, softening the congested waste and disintegrating the hardened particles that cause so much suffering, and expels the accumulation to the great relief of the patient. Traxo is a tonic-alterative that acts on the liver and kidneys, stimulates the flow of gastric juices, to aid digestion and removes bile from the general circulation. It serves to build up the weakened, run-down system.

For the convenience of the public, arrangements have been made to supply Fruitola and Traxo through representative druggists. In Washington they can be obtained at O'Donnell's, 804 F St. N. W.
